HOWDY FROM THE FORSTERS

Pictured left: Kenny

Pictured above (left to right): Seth, Libby, Kaitlyn, Donny, Zane

I would like to thank all of our friends/customers. I have said it in the past, we cattle people are in this business together. That's what makes our trade so good. We are doing what we love; we compare notes with each other on how the business is working for each of us, and to help better ourselves. Communication between us makes for bigger rewards, and best of all friendships. The cattle market is good, and I think it is even going to get better.

I would like to say to the ranchers to the South of us that got hit by the "perfect winter storm" that lost all the livestock, my prayers are with you. That put a cold shiver down my spine when I heard about it. That could have happened to any one of us. Just hang in there. There is always light at the end of the tunnel. We on the other hand had a pretty good year, one of the wettest years yet. The calves in this year's crop look great.

About our program, we have been raising Registered Red Angus since 1967, before that we ran commercial cows and used Red Angus bulls.

Forster Red Angus is a very reputable breeding program. We truly have been through the test of time. It has been over 40 years and going on 50, that we have been providing Top Breeding Stock to the commercial and registered seed stock producer in the cattle industry.

In our program we start calving in May and wean in November, with no creep. We then put the calves on a very high roughage diet until spring, when they are turned

out on pasture, like summer yearlings. Prior to the sale we will supplement them some to get them ready for sale day. These bulls are grown out and not finished out.

Forster Red Angus believes this will ensure a better breeding bull that will have less maintenance and breed more cows for a longer time of his servicing career. We have a lot of customers that compliment us on how our bulls stand up and last a long time.

The family is doing well. They are all grown up and have real jobs, except for Libby. She is on her last year of college. I should say she too is carrying on two part time jobs, also 20 credits per semester, way more then I could handle. My grandson, Donny, has started pre-school and is well on his way. Grandma Sally is doing just fine. Everyone still helps when they can on the ranch, and I as usual am still passing myself. When is it ever going to slow down???

We have a great offering of 18 month old bulls for you to choose from this year. The cattle market is good and looks to be very good in the future. We look forward to seeing you at the sale!

If any of you need some help in your selection just drop us a line and we will more then happy to help you out in any way we can. You are more then welcome to stop by the ranch and view the cattle.

*Sincerely,
Ken Forster and Family*

"Our Cattle are a part of who we are, not just what we do."

➔ GENERAL INFORMATION ➔

BUYER REGISTRATION:

We request that all prospective buyers register and receive a buyer number before the sale.

View Sale Catalog Online at www.forsterredangus.com

LOCATION:

Stockmen's Livestock Exchange • Dickinson, ND
815 Livestock Lane on the east end of town, south of the railroad tracks.

Monday, December 16, 2013 • 1:00 p.m. (MT)
Sale cattle will sell predominately in catalog order.

➤ GENERAL INFORMATION ◀

ABBREVIATIONS AND EXPLANATION OF TERMS

Inspection: The sale cattle will be at Stockmen's Livestock Exchange Saturday prior to the sale. Before this time you are more than welcome to come and visit at the ranch.

C.Ease-Calving Ease Code: Calving ease continues to be a concern for those breeding heifers. WE have tried to provide as much information as possible with EPD's, actual birth weights and a star code system. The star rating for each bull is based on the best information we have available on both individuals and their close relatives. Remember to take into consideration your own cow herd genetics, environment, feeding conditions, etc., will have a big influence on your birth weights.

* Use on cows

** Use on cows or growthy heifers

*** Few calving problems should occur when bred to first calf heifers

Act. BW: The animal's actual birth weight.

BW Ratio: The ratio of an animals BW to the others in its birth contemporary group, 100 being average.

Adj. WW: Weaning weight adjusted 205 days.

WW Ratio: The ratio of an animals AWW to the others in its weaning contemporary group, 100 being average.

YW Ratio: The ratio of an animals AYW to the others in its yearling contemporary group, 100 being average.

ADG Ratio: Is the gain from WW to YW and compared to others in their yearling contemporary group, 100 being average.

SC: Actual bull's scrotal measurement in centimeters.

Frame: Is hip height measured in inches and adjusted for age.

Ultra Sound Carcass: Scan data taking as yearlings for IMF:R, RIB:R, and Back Fat.

% IMF:R: Is the marbling ratio, compared to others in their yearling contemporary group, 100 being average.

REA:R: Is the ribeye ratio compared to others in their yearling contemporary group, 100 being average.

FAT:R: Is the back fat ratio compared to others in their yearling contemporary group, 100 being average.

MPPA: Based on Dam's past productivity. For example, a cow's MPPA for weaning ratio is calculated from the cow's average progeny weaning ratio, the number of her progeny with weaning record, and

the repeatability of weaning weight.

Dam's Age: The dam's age at the time of calving.

CED: The calving ease direct EPD is the probability that an animals calves will calve unassisted to a two year old dam.

BW: The birth weight EPD is measured in pounds of weight differences at birth.

WW: The weaning weight EPD is measured in pounds of weight difference at a 205 day weaning age.

YW: The yearling weight EPD is measured in pounds of weight difference at 365 days of age.

Milk: The milk EPD is the weight difference at 205 days which can be attributed to the milk production and female characteristics of the daughters of the animals.

TM: The total maternal EPD is the total weight difference at 205 days which can be attributed to the dam of an animal alone.

ME: Mature Cow Maintenance Energy Requirement- Predicts cows who have lower energy requirements and will eat less than cows with higher requirements at the same level of production. Low numbers are desirable.

HPG: The heifer pregnancy EPD measures the percent probability that an animal's daughters will calve, as a two year old.

CEM: The maternal calving ease EPD is the probability that an animal's daughters will calve unassisted as two-year olds.

STAY: The stayability EPD is the probability that, after an animal's daughters enter the cowherd, they will remain productive until at least six years old.

MARB: The flecks of intramuscular fat (marbling) is the rib eye muscle between the 12th and 13th rib. Marbling is the most important factor in determining quality grade and is associated with product palatability.

REA: The rib-eye EPD is the difference in square inches in the size of the longissimus muscle (the ribeye muscle, as measured at the 12/13 rib) of an animal's progeny. It is a component in the calculation of carcass cutability or yield grade of percent retail beef.

BFAT: The backfat EPD is the difference in inches in exterior fat thickness in the progeny of the animal. In carcasses, it is measured at the 12/13 rib for ultrasound measurements. It is the most important component in the determination of cutability or yield grade of percent retail beef. It also represents fat which may need to be trimmed off.

TERMS AND CONDITIONS

Terms: Cash and settlement must be made immediately after the sale.

Disputes: The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.

Handling: As sale is affected, all animals will be maintained at the purchaser's risk.

Announcements: Any of these made sale day take precedence over printed material.

Semen Interest Retained: This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he decides to sell him. It does give Forster Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. The revenue from semen sales will be shared by the parties with semen interest after the cost of collecting and marketing of such semen. This collection, unless agreed to otherwise, would be done at the expense of Forster Red Angus and the purchaser's convenience.

Seller's Semen Rights: A 1/2 (one half) semen interest will be retained in all bulls by seller. In the event if seller elects to collect semen from a designated bull, it will be done at seller's expense during such time when purchaser is not using the bull for breeding. On all bulls the buyer receives full possession and full salvage value.

FERTILITY TEST: These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation, including a semen test by a certified veterinarian.

Guarantee: Bulls are guaranteed breeders. All claims must be submitted in writing to the seller with seven months of sale date, along with semen evaluation and health report, at buyer's expense, from a certified veterinarian. Seller shall have the privilege of trying the bulls after his return before making an adjustment. This guarantee is void if there is evidence of improper management in caring for the animal, or the bull's inability to breed is due to sickness or injury which was incurred after being sold. Heifers are guaranteed to be open and are Bangs vaccinated.

Health Certificates: Will be furnished anywhere in the U.S.A.

Liabilities: All people who attend the sale do so at their own risk and the owner and sale management assume no liability, legal or otherwise, for any accidents which may occur.

Contracts: The above terms and guarantees shall constitute a contract between the buyer and seller of each animal sold.

Delivery: Free delivery on bulls immediately following the sale to central sale barn locations in North Dakota and adjacent states. Beyond that, delivery at cost only. Forster will help arrange for shared trailer loads to central locations and prorate the loads at cost. We try to arrange deliveries to accommodate as many buyers as possible, but it is impossible to schedule perfectly. Please try to understand. Forster normally will deliver most cattle.

Forster North was our top selling bull in 2010 to Arrowsmith Red Angus. He is a long bodied, wide topped, and has depth of rib and flank with excellent feet and legs. He is very well balanced. North stamps his calves. They are balanced looking with carcass. The daughters will make excellent cows. North progeny BW is 81 lbs.

Co-owned with Arrowsmith Red Angus.

RHRA Gold Rush 17T is a moderate frame bull that is well balanced in his makeup. Gold Rush is thick made and easy fleshing. Gold Rush sire CCF Gold Bar is also a moderate framed, wide based bull with a wide top line and thick butt. The dam RHRA Mattie descends back to the Boot Jack Mattie lineage, well known for there productivity. She weaned 63% of her body weight producing Gold Rush. Gold Rush has yielded top Ratios, EPD's, and carcass. His calves did very well in our herd. Gold Rush 17T progeny average BW is 81 lbs. Owned with Rafter H Ranch & Syndicate. Accelerated Genetics

Watch & bid online for FREE at

DVAuction

Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab and watch our online bidding tutorial
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? Call Tami at (308) 870-3661 or email tami@dvauction.com
Our full-time support team can also always be reached at (402) 474-5557.
